

Hiring Freeze for Software Testers in Start ups, MNCs : This is What you Have to do

Whats Happening

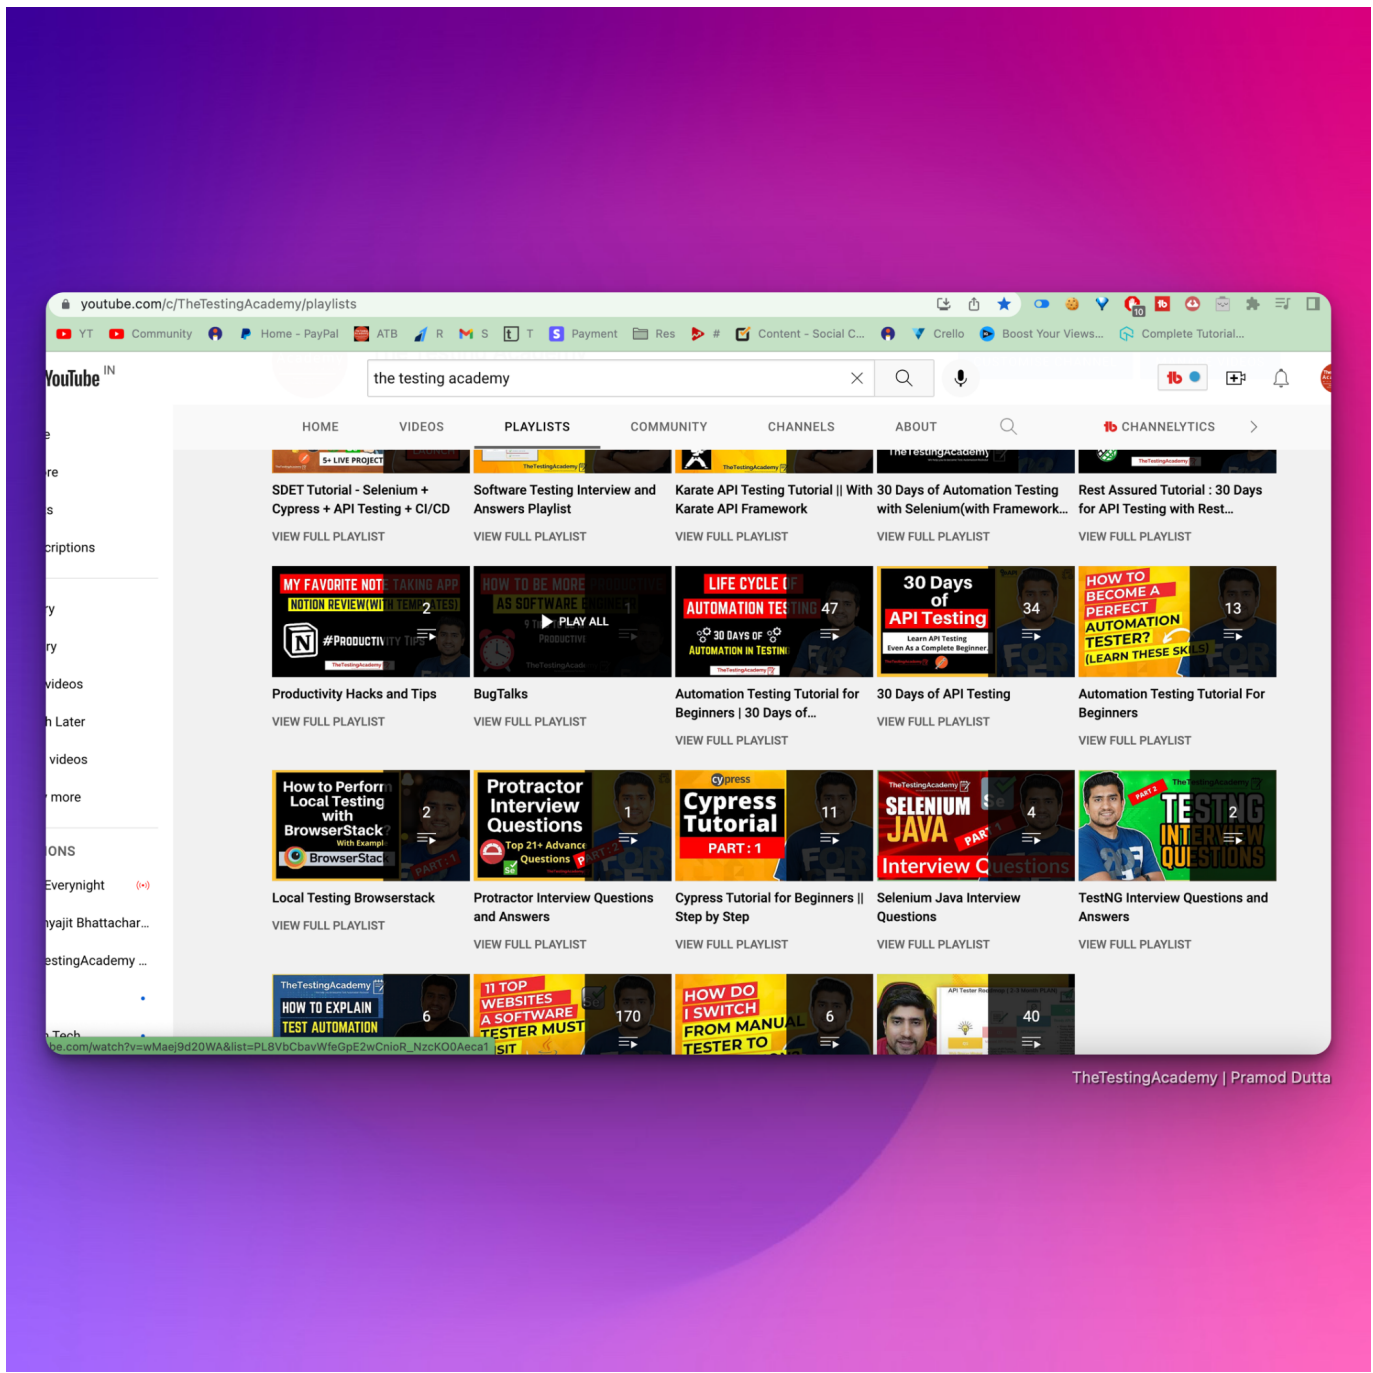

- Our Indian Economy and IT industry mostly deepened on US
- US already have negative GDPs
- Experts are saying we are in Recession already
- Many Startups and MNCs like Congizant, Inf, TCS already Freezes Hiring
- Very few new projects in MNCs

Sudden Layoff also in Indian Startups Unacademy extra

What you should do?

- Don't Feel Sad, It happens, This shall to 0 P
- Focus on the Learning, Buy Courses
- Make a Plan for 3-5 Month
- Right Time to Learn Concepts Like I did
- Manual to API Testing
- Manual to Automation Tester
- Freshers who want to Jump to Learn Concepts
- Learn Manual Testing

- 
- ```

graph LR
 Selenium --- API_Testing[API Testing]
 Selenium --- Rest_Assured[Rest Assured (API Automation)]

```

- Do 30 Days Challenges
- Keep on Applying where ever you Find Jobs
- Reference Has more Guarantee over Direct Apply
- Perfect your Resume

### What I would have done?

- I have seen this time many times
- Focus on the Learning and Improving yourself
- Prepare a Action Plan for 3-4 month
- Improving Coding, Do Projects on Sat / Sun
- Take out courses and Learn
- Try New Skills If Fresher Try RPA, ETL Tester where less competition
- Keep on applying whenever I see opening.

#### Action Item Resources for you
